3.45 Simpli-Business PRI

Simpli-Business PRI is a medium sized business offering that allows telecom functionality to best manage large or customer care-driven incoming call volumes. This product provides customers with local, long distance and certain non-regulated features via a T-1 trunk platform that accommodates one of two possible configurations: twenty-one (21) B channels, one (1) D-channel, and two (2) maintenance/management channels, or twenty-three (23) B channels, one (1) D-channel with an IVP T-1. The two configurations allow for voice-only PRI applications while allowing the standard Simpli-Business T service model with remote access to other auxiliary devices. Integrated PRI applications are not available with this offer.

Simpli-Business PRI is only available via trunk service. Only one trunk group will be supported per D channel. Simpli-Business PRI requires DID number blocks. One (1) block of twenty (20) DID numbers is included with Simpli-Business PRI. Additional blocks carry an additional cost.

Optional features may carry additional charges. Optional features are not required elements but are available to satisfy customers' needs in growth and multi-site connectivity. Simpli-Business PRI includes Hunting in the base package. The Hunting options will be configured as defined by the customer.
